

Family Surname

The form is a comprehensive family tree template. At the top center is a box for the **Family Surname**. Below this, the tree branches out into two main lines. Each line starts with a box for a **Parent** (Name, Birth, Marriage, Death) and branches into boxes for **Children** (Name, Birth, Death). The tree continues to branch out into further generations, with each generation represented by a new level of boxes. The boxes are designed to be filled out with personal information, and the tree structure allows for the recording of multiple generations of a family. The background features a large, stylized tree with many green leaves, and the text 'Courtesy of Missouri Secretary of State State Archives' is visible at the bottom center.
